

31 March 1977

MEMORANDUM FOR: Mr. Knoche

FROM : Admiral Turner

SUBJECT : Intelligence Analysis

1. Along with your continuing efforts to improve our analytic capabilities, I would like to encourage work both within and outside the Agency in the refinement of existing analytic methods/techniques and the development of new ones.

2. Research on better ways for doing analysis is a logical area for Agency people to work cooperatively and openly with individuals and civilian academic institutions on a common problem. This type of activity can help restore trust and confidence in the Agency, while benefiting both government and the civilian sector.

STANSFIELD TURNER
Admiral, USN
